Experienced React JS developer with 2 years of expertise in developing dynamic web applications. Proficient in JavaScript, Redux, and SCSS, with a solid understanding of web technologies. Strong problem-solving skills and a collaborative mindset, adept at collaborating with cross-functional teams to deliver high-quality solutions. Proven track record of implementing scalable and responsive UI components. Seeking new opportunities to leverage my skills and contribute to innovative projects.

EDUCATION

Under Graduate

Karpagam College of Engineering

06/2018 - 06/2022   *Coimbatore*

Courses
- Bachelor of Technology, Information Technology

WORK EXPERIENCE

UI Engineer - Product

Senseforth.ai

02/2022 - Present   *Bangalore, India*

Achievements/Tasks
- Researched and developed some challenging tasks like encryption, SSO login, pdfs, QR code generation, lazy loading, pagination etc.
- Transformed native applications into mobile-friendly through webview for Android and iOS.
- Created Interfaces for more than 5 popular government services like Cowin, EPFO, IRCTC etc.. Using React Js, Javascript, Scss, Redux, Webpack and React hooks.
- Administered more than 5 version releases of chatbot services to the production environment, maximizing customer activity from 55% to 75%.
- Integrated over 10 popular government services like Cowin, EPFO, IRCTC with custom UI interfaces in the chatbot.
- Performed to improve and enhance user experience and increased upto 70% of the performance of the application
- Collaborated with stakeholders, clients and QA and provided the best deliverables.
- Created a full screen web application product from scratch and implemented Redux for storing states globally
- Helped in delivering POCs to the clients like, Verizon and Philips.

Senseforth.ai

06/2021 - 06/2022   *Bangalore, India.*

Achievements/Tasks
- Participated in creation and maintenance of project conversational AI chatbot for government and private clients like UMANG, MyGov and Bosch
- Created workflows and UI interfaces using React Js, Javascript, Redux, Webpack to show the desired output for the user query.
- Have solved several voice related issues and modifications

SKILLS

React Js · Javascript · Advanced Javascript · Redux · React-hooks · CSS 3 · HTML 5 · Git · Rest API · Webpack · Bootstrap · Ajax · Flutter · Gatsby Js · SCSS · Java · JQuery · Firebase · Tailwind · Styled Components

PERSONAL PROJECTS

E-commerce (07/2022 - 08/2022)
- This app is built with ReactJs, Redux for learning purpose and used webpack configurations to simplify the production build and stuff, Redux is used to maintain the states for several things mainly to store the items in the wishlist and order summary.

Weather API (08/2022 - 08/2022)
- This app is built to learn about how to fetch and use the data from opensource APIs and display the contents in the display, By developing this App I've learnt how to use REST APIs.

Todo (09/2022 - 09/2022)
- This App is build for learning React-Redux to maintain and control the todo list.

Portfolio (10/2021 - 11/2021)
- Portfolio is built for showcasing my skills and achievments.

Code Editor (02/2023 - 05/2023)
- Created a own code editor application like codepen.io with my own idea.
- Used React Js, webpack, Redux Js, SCSS to implement the ideas in it.

CERTIFICATES

Ebox -Data Structures : deep dive using C.

SoloLearn - ReactJs.

App Brewery - Introduction to Flutter Development using Dart.

Coursera - AI for everyone.

Coursera - Programming with everybody.

Coursera - App development using Java in Android Studio.
